

# PRIYANSHU KUMAR

## SOFTWARE ENGINEER

Patna, India • +91 84070 53234 • 28priyanshu2001@gmail.com • thepriyanshu.vercel.app

Self-driven Software Engineer with 3 years of hands-on expertise creating high-performance, user-centric web solutions. Proficient in React.js, Next.js, and TypeScript, having built robust, role-based solar management platforms and comprehensive eCommerce applications. Recognized for crafting advanced UI components, boosting SEO, and streamlining performance to satisfy business objectives. Dedicated to translating intricate requirements into efficient, maintainable code while collaborating effectively with cross-functional teams.

Beyond professional engagements, I have undertaken personal initiatives that highlight creativity and technical aptitude. These projects range from building interactive dashboards with real-time data to experimenting with modern libraries—all aimed at refining workflows and delivering impactful results.

## AREA OF EXPERTISES

MERN ♦ Component Library ♦ Role-Based System Architecture ♦ E-Commerce ♦ Performance Optimization & SEO  
Agile Methodologies ♦ Version Control ♦ Cloud Deployment & DevOps ♦ Test-Driven Development ♦ Figma

## PROFESSIONAL EXPERIENCE

**Bapa Sitaram Innovation and Technologies • Vadodara, Gujarat**

Jun 2024 - Present

### Full-Stack Developer

- Engineered a Solar Management System featuring role-based access control (admin, branch manager, agent), dynamic quotation generation, PDF handling, and multi-step consumer onboarding.
- Designed and orchestrated an eCommerce platform for Ayurvedic products with secure authentication, shopping carts, checkouts, and product favorites.
- Developed an administrative panel for eCommerce management, integrating dashboards, user tables, and CRUD operations for products.
- Enhanced banking software functionality to include a user-friendly interface for transaction history, account details, and a responsive client portal.
- Deployed and maintained multiple web applications using Cloudflare Tunnels and Vercel, focusing on performance optimization and secure connections.

**Eshkon • Remote**

Jul 2023 - Jun 2024

### Front-End Developer

- Spearheaded the development of over 30 reusable UI components with Next.js, TypeScript, and Redux, significantly improving UI consistency and performance.
- Integrated Contentful headless CMS for effortless content management by non-technical teams, optimizing build processes with npm and SASS for scalability.
- Developed a highly optimized Next.js web application focusing on SEO and performance, incorporating SEO schema markup and dynamic page generation to increase organic traffic and user satisfaction.

**Echnotech Pvt Ltd • Bangalore, Karnataka**

Apr 2022 - Jun 2023

### Front-End Developer

- Led development of responsive web applications using React, Redux, and Material-UI, ensuring seamless user experiences and optimized performance.
- Implemented dynamic table components with filtering, search, and pagination, enabling efficient data interaction between the frontend and backend.
- Created a Delivery Partner Management System with KYC verification, map integration, and order tracking for wholesale operations.
- Conducted unit testing and code reviews to ensure high-quality code and site performance.
